

# AOMSC-KSMS 2023

Asia-Oceania Mass Spectrometry Conference | Annual Meeting of the Korean Society for Mass Spectrometry

*Navigating the future with mass spectrometry*

August 20~23, 2023 | Jeju Island, Korea

## Invitation Letter

Professor Xianglei Kong  
Nankai University

April 12, 2023

Dear Prof. Xianglei Kong

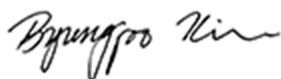

I hope this letter finds you in good health and spirits. On behalf of the organizing committee of the Asia-Oceania Mass Spectrometry Conference (AOMSC) 2023, I am delighted to extend an invitation for you to participate as an Invited Speaker at the 9<sup>th</sup> AOMSC. The conference will take place from August 20<sup>th</sup> to August 23<sup>rd</sup>, 2023 at the Jeju International Conference Center in the Republic of Korea.

The AOMSC is a biennial conference in the Asia-Oceania region, and we anticipate approximately 1,000 participants at AOMSC 2023. The conference provides a valuable opportunity to network with new colleagues, exchange scientific ideas, discover novel opportunities, and deepen professional knowledge. We believe that you will gain insight while sharing your experience with other participants.

As an Invited Speaker, you will be provided with an honorarium of 400,000 Korean won. Please note that the registration fee and accommodations fee will need to be paid separately. We believe that the conference will offer you a rich and intellectually stimulating experience, with presentations and discussions covering the latest advancements in mass spectrometry.

We also encourage your colleagues and postdoc/students to apply for open oral or poster presentation spots. The AOMSC 2023 will provide them with an excellent opportunity to share their scientific ideas with other young mass spectrometrists in the Asia-Oceania region. We hope that you and your students can join us at the conference.

Respectfully,

Byungjoo Kim, Ph.D.  
President, Korean Society for Mass Spectrometry
